

Village of Rapids City Commercial Cross Connection Control Survey

In order to protect the Village of Rapids City's water supply from being contaminated, we are conducting a survey to determine if there are hazardous conditions that could affect our drinking water. The survey consists of three (3) pages.

We appreciate you taking time to complete and return the survey with your bill or by email at vorc@rapidscity.us.

If you have questions regarding the survey please contact Ryan Bump at the Public Works Department, phone number 309-496-2321.

Yes No

Sterilizer?

Yes No

Truck or tank filling equipment?

Yes No

Water cooled equipment?

Yes No

Grease traps?

Yes No

Other equipment with a direct connection to Village Water?

If so, please indicate what is connected. _____

The Illinois Department of Public Health Plumbing Code requires hose vacuum breakers to be attached to all outdoor faucets. The devices protect plumbing systems from being contaminated by any substance which might enter the water hose (lawn fertilizer, herbicide, soap, etc.) Hose vacuum breakers are available at most hardware stores or throughout your local plumbing contractor.

The information provided in this survey form is an accurate and current description of the water system at this address. Please print and sign your name and date on provided lines after completing this survey. We appreciate you taking the time to complete and returning the survey with your bill or by email at vorc@rapids-city.us.
